

Product Change Notification

Change Notification #: PCN0607-07.0

Change Title: Optical Networking Components; LXT901
Universal Ethernet Transceiver; PCN0607-07
– Order Code and Product Material;
Abridged Timeline

Date of Publication: 28 June 2007

Key Characteristics of the Change:

Order Code and Product Material

Forecasted Key Milestones:

Last Product Discontinuance Order Date:	30 December 2007
Last Product Discontinuance Shipment Date:	30 June 2008

Description of Change to the Customer:

Due to a downward shift in demand, Cortina Systems is announcing the discontinuance of the non-RoHS products listed in the table below.

Customer Impact of Change and Recommended Action:

The difference is that remote signaling was removed with the 901A/907A. It was determined in '97 that customers were not implementing designs using remote signaling partly due to link partners not supporting the feature. You will find the following pins on the 901 that are no connects on the 901A:

- Pin 7 = Remote Link down
- Pin 25 = Remote Compatibility
- Pin 29 = Remote Jabber

All orders are non-cancelable/non-returnable after December 30 2007 for the Lead-Based Product.

Please contact your local Cortina Sales Representative for further information regarding this product.
