Description of Change to the Customer:

Due to the substrate supplier's decision to exit the business, Cortina Systems will be changing package substrates on the affected products listed below. The "Date Customer Must be Ready to Receive Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN Publication. The depletion of inventory may be impacted by fluctuating supply and demand; therefore, Cortina Systems will continue to ship and customers may continue to receive the pre-converted material until inventory has been depleted.

Customer Impact of Change and Recommended Action:

This change has no impact on form, fit, functionality, customer handling, manufacturability, or product quality or product reliability. Customers may want to qualify new BGA substrate package on their systems and be prepared to begin receiving revised devices per forecasted key milestones above.
