Reference PCN 400620

Change Title: Product discontinuance - Important supplementary information required customer action

Revision Date: 24 February 2009

Type of Notification:

Customer action required

Description of Change to the Customer:

Cortina originally published a discontinuance notice for all products from a 1.0 micron foundry in Dec 2007, reference PCN 1207-03. On 24 June 2008, the last time order [LTO] and last time ship [LTS] dates were pushed out on 9 selected higher volume part numbers, to 31 March 2010 and 31 Dec 2010 respectively, based on a decision from the foundry to extend their manufacturing window. Additionally, all orders become non-cancellable and non-returnable [NCNR] after 30 Sep 2009. Unfortunately, the foundry has recently notified Cortina Systems that they have lost their largest customer who accounted for >60% of their business and are now planning to close permanently within a few months.

Customer Impact of Change and Recommended Action:

Cortina plans to continue to honor the key milestone LTO, LTS, and NCNR dates as published on PCN 400620 and noted above. This PCN, like all similar product discontinuance notices we publish carried the warning **“Cortina systems may accept such orders through [LTO date] or until inventory has been depleted, whichever comes first.”** Because Cortina has very little time to procure material that we normally would have not ordered without PO's in hand from you, our customers, we must immediately collect forecasts from all users of these products to insure that we have sufficient quantities of these devices on hand throughout the remaining period we expect to take orders.

Please note that the forecasts collected will be non-binding, but as Cortina will assume the risk of buying due to FC, we must reserve the right to change prices for any customers who purchase significantly lower volumes than they forecast.

Additionally, Cortina may, at our sole discretion, choose to allocate product based on customer forecasts until the end of the published ordering period up to 31 March 2010, after which time any surplus materials would be offered on a first-come, first served basis.

Customer Action Required:

On or before 20 March 2009, provide Cortina systems with a forecast of all orders you expect to place between that date and 31 March 2010.

The forecast should include:

Customer Name (Not CM or distributor name)

CM or distributor name (entity we would expect to receive the PO from)

Cortina Part Number (see list below for products affected by this update)

FC Qty (Total of all units planned to order between 20 Mar 2009 and 31 Mar 2010, regardless of delivery date)

Send completed forecasts to customerservice@cortina-systems.com

Please put "400620 LTB FC" in the subject line.
